corollary of Borel-Cantelli lemma

Canonical name	CorollaryOfBorelCantelliLemma
Date of creation	2013-03-22 15:22:09
Last modified on	2013-03-22 15:22:09
Owner	renato (9974)
Last modified by	renato (9974)
Numerical id	10
Author	renato (9974)
Entry type	Corollary
Classification	msc 60A99

Under independence, we have an equivalence.

sketch: You have only to think about the counterpositive of the lemmas and use the Kolmogorov 0-1 law or try to do it by contradiction which is simpler.
